Creating a Youth Leadership Council

Justin Green suggested establishing a Youth Leadership Council. Since Justin is not in attendance at today's meeting, the agenda item is table for a future meeting

In Winona County there is not a Youth Leadership Council, however an Extended Foster Care system is in place that's assigned to Winona County Health & Human Services Child and Family Services Social Worker, Tessa Diepenbrock. Tessa has approximately ten 17 – 21 year olds on her caseload. Winona County could be seen as doing Youth Leadership through Extended Foster Care services which keeps teens in the system, helps them be independent, and provides funds, support, and options.

It's reported last week in Winona County alone, 12 children were removed out of home due to drug issues in the household. Removals happen where drug use and Law Enforcement are involved arresting parents. Children are unsafe with homemade meth now being produced. "Shake and bake" meth is made in the microwave and is very dangerous. Winona County has 52% kinship placements in comparison to the statewide rate of 35%. What can be done? Consider being a foster parent. Details about becoming a foster parent is posted on the Winona County Human Services webpage. The Committee requests to receive a report from Tessa Diepenbrock specifically more information about teens in foster care and how they may best be supported.
