Jail Programming Updates/Follow-ups

Per results of SIM Reporting, ease of navigating access to county mental health services is an identified gap/area for improvement. Justin has drafted a plan for consideration in helping fill this gap and is requesting direction from the Health & Human Services Advisory Committee on content/implementation. The proposed plan will be sent to Karen Sanness to share with the Health & Human Services Management Team for viewing/consideration prior to it being placed on a future agenda (October, 2021) for consideration by the full Health and Human Services Advisory Committee. Committee members are encouraged to take the Winona County Community Needs Survey being done via Engage Winona. Surveys can be completed on-line, located at the Engage Winona website as follows:

- Ground breaking ceremony likely to occur in September, exact date to be determined and announced

- Project completion and occupancy is estimated for June, 2023

Juvenile Justice Supervision Follow-up

Karen shared a Request for Board Action (RFBA) is being drafted for inclusion on the 8/24/2021 County Board Agenda requesting the County Board support the recommendation that the Health & Human Services Advisory Committee assist in mapping a current state of prevention and early intervention services continuum and provide a proposal for a future state of prevention services and early intervention continuum for all children at risk of out-of-home-placement. The thought is the Health & Human Services Advisory committee is community based and well represented with a mix of community members and professionals that can bring a unique perspective to addressing prevention and early intervention.

It was suggested other stakeholders be included in future planning discussions and consideration of an email invite be drafted to help engage stakeholders to provide input into system improvements.
